Responsive Design: The application is designed to be responsive, ensuring optimal user experience.

BookMyShow-Backend 🔗

Book My Show Book My Show is a web application for booking movie tickets. It utilizes MongoDB for the database, Express.js for the backend.

Skills: MongoDB, Express.js, Mongoose, Nodemon

- BookMyShow backend developer adept at optimizing performance and ensuring reliability. Experienced in project management, database design, and API integration. Collaborative team player with a focus on quality code

Entertnement-App 🔗

The Entertainment App is a full-featured movie and TV series app that have to built with the help of full-stack programming skills while exploring new technologies. Users may simply find movies and TV shows, watch trailers, write comments, and save their favourites entire user experience.

Skills: React,Jsx,Babel,Webpack,React-Router,Axios,RapidApi,Html,MaterialUi

- Built a Jukebox application from scratch, promoting skill development and engagement.
- I used the Entertainment-app project's backend development utilising the MERN stack, ensuring efficient data management with MongoDB/Express.js. Collaborated on the frontend utilising React to create a user-friendly experience for the users. .

SKILLS

OS: Windows

Languages: Javascript

Tools: Postman

Tech./Frame.: JavaScript   React.js   Redux

MongoDB   Express.js   Git & Github   Node.js

Axios/Fetch API   Html/Css   Bootstrap/TailwindCss

AWS

ACHIEVEMENTS

Data Structures and Algorithms
Successfully **solved** more than **150+** Data Structure and Algorithm questions on platforms such as LeetCode, GeeksforGeeks, CodingNinjas, and AllmaBetter, showcasing strong problem-solving skills and a deep understanding of core concepts.

Leadership Achievements
An aspiring full-stack developer specializing in MERN stack. Passionate about coding and learning new technologies. Looking forward to working in a company and scaling it to new heights."

EDUCATION

Bachelor of Arts

Bhimrao Ambedkar University

📅 May 2020 – April 2023

CERTIFICATES

- **Full-Stack-Developer** 🔗
